

Wicked Pizza is the latest innovative business system developed by South Australian entrepreneur Nicholas Llewellyn.

Nick developed the Wicked Pizza concept during 2007 and implemented the trial phase for Major Events and Store Pilot during 2008.

The first store opened cnr Hindley and King William Street, 7 Nov 2008 and remains under Head Office management.

Wicked's Major Event Catering division is now into its second year and now operated at all key Major Events in Adelaide.

The success of the Major Events system centres around the speed at which pizzas can be produced. The operation has the ability to produce up to 500 units per hour where required. It's mind-blowing to watch and runs rings around any other pizza production system.

So come and see us at the Hindley Street Store or at all Adelaide Oval events, all events at the Royal Adelaide Showgrounds, all major music festivals including Parklife, Stereosonic, Summerdayze, Big Day Out, Future Music to name but a few. We're at the Garden of Unearthly Delights in 2010 and we're involved in multiple Fringe and Festival events in 2010.

If you're an event organiser please and you would like Wicked at your major event then please contact events@wickedpizza.com.au
